- Flurazepam HCL
- Lorazepam
- Midazolam
- Nitrazepam
- Oxazepam
- Temazepam
- Triazolam
- Zaleplon
- Zolpidem Tartrate
- Zopiclone

### Buprenorphine

- BuTrans
- Suboxone (buprenorphine/naloxone)
- Vetergesic

### Butalbital Preparations

- Fiorinal
- Fiorinal C ¼ & C ½
- Teva-Tecnal C ¼ & C ½

### Butorphanol

- Apo-Butorphanol
- Dolorex
- Stadol
- Torbutrol
- Torbugesic

### Codeine

- Acetaminophen with Codeine #1,2,3,4 (Atasol, Lenoltec, Tylenol)
- Calmylin Codeine Syrup products
- Codeine Contin
- Teva-Cotridin

### Dextropropoxyphene

### Esketamine

- Spravato

### Fentanyl/Sufentanil/Alfentanil

- Duragesic Patches
- Sufentanil Citrate Injection

### Hydrocodone - Dihydrocodeinone

- Novahistex/Novahistine-DH
- PDP-Hydrocodone
- Tussionex

### Hydromorphone - Dihydromorphinone

- Dilaudid
- Hydromorph Contin

### Ketamine\*

- Ketalar
- Ketalean
- Ketaset
- Narketan

### Meperidine – Pethidine

- Demerol
- Meperidine HCl Injection

### Methadone

- Metadol
- Methadose

### Methylphenidate

- Biphentin
- Concerta
- Foquest
- PMS Methylphenidate/ER
- Ritalin/SR

### Morphine

- Doloral
- Kadian
- M-Eslon
- Morphine Sulfate SR
- M.O.S.
- MS Contin
- Stalex

### Normethadone

- Cophylac

### Oxycodone

- Oxy.IR
- OxyNEO
- Supeudol
- Targin
- Teva-Oxycocet/Oxycodan

### Pentazocine

- Talwin

### Tapentadol

- Nucynta IR/Extended Release

### Tramadol

- Apo-Tramadol/Acet
- Durela
- Ralivia
- Taro-Tramadol ER
- Ultram

**Note:** Trade names are included as examples only. This list is not exhaustive for all marketed products containing a monitored drug.

\*Ketamine, euthanasia solutions, sodium pentobarbital, general anesthetics (including propofol, halothane, isoflurane), and injectable alpha-2 agonists cannot be dispensed from veterinary practices. (Non-injectable alpha-2 agonists may be prescribed by veterinarians and dispensed from veterinary clinics. A TPP form must be used.)
