

# You can be involved in bringing a physician to your community

Sponsorship brings physicians to Alberta  
& supports community-based health care

## Physician shortages are a challenge, especially in rural communities. Sponsorship is one way to bring more physicians into your area.

Recruiting more physicians to work in your area could start with sponsoring a position for an internationally trained physician.

Choosing to sponsor a physician position is an important responsibility, and the College of Physicians & Surgeons of Alberta (CPSA) can support you with eligibility questions to ensure you and your community can meet these responsibilities.

### What can you do?

#### ✓ Community members

- Identify areas of need in your community
- Bring this opportunity to your community leaders, local municipality and medical clinics and encourage them to submit an application to CPSA

#### ✓ Clinics, municipalities or other organizations

- To become a sponsor, first, ensure you can meet all sponsor responsibilities and expectations
- Follow all steps required to submit an application to sponsor a physician position in your community
