

Physician Resources in Alberta

Quarterly Update:
Jan 01, 2026, to Mar 31, 2026

Quarterly Update on Physician Resources

TABLE OF CONTENTS

1. Highlights
2. Report 1 - Summary of Changes in Physician Resources
3. Report 2 - Physician Resources by Zone
4. Report 3 - Changes in Physician Resources by Specialty
5. Report 4 - Summary of Inflows and Outflows
6. Report 5 - Inflows and Outflows by Physicians' Place of Graduation
7. Report 6 - Summary of Practice Readiness Assessments
8. Methodology

Quarterly Update on Physician Resources for the three months, and year, ended March 31, 2026

HIGHLIGHTS

Registers:

- At the **end of March 2026** there were **12,992** physicians registered on the in-province registers. This figure reflects a **decrease of 16 from the last quarter**, and an **increase of 869 from the same period in 2025**.
- At the end of March 2026 there were a **total of 856 members** on the General Register with an out of province address. This total plus the 12,992 members above brought the total number of members on the full register to **13,848**.
- During the **first quarter** of 2026, a decrease of 8 physicians was noted on the General Register with the Provisional Register decreased by 8.
- Within the **year-to-year** comparison there was an increase of 948 on the General Register, and an decrease of 79 on the Provisional Register.
- To put this in perspective, report 4 (Summary of Inflows and Outflows) reflects an inflow of 339 physicians during the first quarter. Offsetting the overall inflow of physicians was an outflow of 355 physicians. Please refer to Report 4 for further explanation on the inflows and outflows that occurred during this quarter.
- **Definition of General Register:** contains the names of all physicians and osteopaths who are responsible and accountable for their medical practice, without supervision by another physician or the College of Physicians & Surgeons of Alberta.
- **Definition of Provisional Register:** contains the names of physicians and osteopaths who do not meet the criteria for the General Register but are in a process that once successfully completed, will qualify for the General Register.

Gender:

- Over the last quarter, there was a **net decrease of 14 males** and a **net decrease of 3 females, and an increase of 1 undisclosed**.
- The **year-to-year** change reflected a net increase of **475 males** and an increase of **391 females, and an increase of 3 undisclosed**.

Specialists / Non-Specialists:

- CPSA follows the national specialty associations in recognizing Family Medicine as a specialty. The vast majority of Alberta family physicians in general practice are classified as specialists in Family Medicine.
- Over the **last quarter**, there was a **net increase of 12 specialists (increase of 17 Family Medicine Specialists/decrease of 5 Non Family Medicine Specialists)** and a **net decrease of 28 non-specialists** (report 1).

- Effective September 22, 2025, CPSA designated all Family Medicine physicians and General Practitioners as Specialists in Family Medicine. This terminology better aligns with the services they provide and makes Alberta consistent with other Canadian jurisdictions.
- Currently there are 11 Non-Specialists that are still in process of transferring to Specialist
- Report 3 (Changes of Physician Resources by Specialty) outlines changes in numbers for each specialty over the past year. For information pertinent to all specialties please refer to Report 3.
- For a physician to be registered as a specialist in either family medicine or a specialty practice, the physician must provide evidence they have equivalent postgraduate training (PGT) and certification as that required by the College of Family Physicians of Canada (CFPC) or the Royal College of Physicians and Surgeons of Canada (RCPSC). Physicians who don't have their Canadian credentials are eligible for the provisional register and must have sponsorship for a clinical position and to pass a practice readiness assessment to ensure they have the knowledge, skills and competency to practice medicine safely in Alberta.
- Physicians who don't meet the requirements to be registered as a specialist on the provisional register may be eligible as a non-specialist if they have completed at least 36 months of discipline-specific PGT and have specialty certification recognized by another jurisdiction.

Location by Region:

- Please refer to Report 2 for changes in physician resources by zone.

Practice Readiness Assessment (PRA-AB):

- Physicians who do not have complete Canadian credentials, CPSA's PRA-AB is the final step of an alternate path to independent practice in Alberta and includes a two-part assessment of clinical competence, chart management and professionalism.

Report 1

Summary of Changes in Physician Resources Report For the Period 01 Jan 2026 to 31 Mar 2026

	Current Period	Last Period	#	Change %	Same Prd Last Year	#	Change %	Change
Fully-Registered Physicians in Alberta:

Total Retired	2304	2186	118	5.4	2152	152	7.1	

* Effective September 22, 2025, CPSA designated all Family Medicine physicians and General Practitioners, who were previously identified as **Non-specialists**, as **Specialists in Family Medicine**. The significant net increase in Family Medicine Specialists and net decrease of Non-specialists is a function of the reporting change, but does not reflect the change in the actual number of physicians registered.

** The remaining Non-specialists are currently in the process of being reviewed before their designation change to Specialist – Family Medicine.

***At the end of December, there were 733 members on the General Register with an out-of-province address. This total added to the 13008 with in-province addresses combined to total 13741 members on the full register.

Report 2

Physician Resources by AHS Zone For the Period 01 Jan 2026 to 31 Mar 2026

Report 6

Summary of Practice Readiness Assessments For the Period 01 Jan 2026 to 31 Mar 2026

Practice Readiness Assessment (PRA-AB)	Q1 2026	% Change	Q1 2025
Initiated	44	-29.03%	62
Probationary assessment only	2	-91.30%	23
Preliminary clinical assessment plus probationary assessment	42	7.69%	39
Completed Assessment & Working in Hired Location	31	-22.5%	40

For this table, completed assessments may have been initiated in a prior year.

Quarterly Update on Physician Resources Report Methodology

REPORT 1- SUMMARY OF CHANGES IN PHYSICIAN RESOURCES

This report provides an overall count of the number of physicians who are registered with the College of Physicians and Surgeons of Alberta by taking into account all categories of licensure.

'Current Quarter to Last Quarter' and 'Current Quarter to Same Quarter Last Year' comparisons, which are further broken down by number and percent, provide a clear outline of the changes in Physician Resources.

Distribution by gender, specialty, location and place of graduation are also included. A similar breakdown is not offered in respect of: 1) physicians on the General Register who reside out-of-province, 2) physicians on the Education Register, and 3) retired physicians.

Limitations:

Counts: The numbers reflect the physicians who maintained an active license within the applicable quarter; it cannot be interpreted as those who are actively practicing.

Location: The location counts are based on the physician's practice location, where available. Otherwise the physician's home address is used for location purposes.

Definitions:

Fully-Registered Physicians in Alberta:

General Register: contains the names of all physicians and osteopaths who are responsible and accountable for their medical practice, without supervision by another physician or the College of Physicians & Surgeons of Alberta.

Provisional Register: contains the names of physicians and osteopaths who do not meet the criteria for the General Register but are in a process that once successfully completed, will qualify for the General Register.

Limited Practice Register: contains the names of physicians and osteopaths who are restricted to limited practice activities under the supervision of another physician, and are not the most responsible physician in the care of patients.

Courtesy Register: physicians on the Courtesy Register involved primarily in research (but with a defined clinical component), or teaching. Very few physicians are offered this form of licensure.

Other Categories of Licensure:

Emergency Register: physicians and osteopaths who are practicing medicine in Alberta on a temporary basis during a medical emergency or crisis

Telemedicine Register: physicians and osteopaths located outside Alberta who are practicing telemedicine pertaining to patients in Alberta.

Student Register: those undergraduates enrolled in a faculty of medicine in Alberta or enrolled in another medical school who are undertaking undergraduate medical education at a university in Alberta

Retired (In/Out of Province): Physicians who have retired from the practice of medicine in Alberta. Note: Retired status is not a form of licensure.

Understanding Report 1:

Col. 1: "Current Quarter" represents the tally at the end of the quarter.

Col. 2-4: "Last Quarter" reflects the numbers at the end of the previous quarter, "# Change" is the net change between the two quarters represented, and "% Change" is the same measure, in percent. Please refer to Report 4 for the sources of this change.

Col. 5-7: Makes the same comparisons as columns 2-4, except compares the current quarter to the equivalent quarter last year (i.e., Quarter 1, 2026, is compared to Quarter 1, 2025).

REPORT 2 - PHYSICIAN RESOURCES BY ZONE

This report provides net changes by Zone for those physicians fully licensed in Alberta. Broken down to reflect both specialists and non-specialists, the report compares the current quarter to the equivalent quarter last year, resulting in a net change applicable to each Zone.

Col. 1: Alberta Health Services Zone name. The 'Other' category displayed represents fully-registered physicians who are resident in Alberta but at the time of reporting an Alberta address was not available.

Col. 2-4: "Current Quarter" reflects the number of specialists and non-specialists as well as a combined total by Zone.

Col. 5-7: "Same Quarter Last Year" reflects the same information as columns 2-4, with the exception that the information displayed is for the same quarter last year.

Col. 8-9: "Changes" compares the current quarter numbers to the equivalent quarter figures last year, "# change" is the net change between the quarters represented, and "% change" is the same measure, in percent.

REPORT 3 - CHANGES IN PHYSICIAN RESOURCES BY SPECIALTY

This report provides a year to year comparison of the inflows and outflows and illustrates how the changes documented in report 4 (Summary of Inflows/Outflows) affect the composition of specialists and non-specialists. Physicians are categorized by their most recently recognized specialty.

The numbers can be affected in one of two ways: a non-specialist can become a specialist, or a specialist can obtain a new certification. In the first instance, the non-specialist category is reduced by one, and the applicable specialty is increased. In the second instance, the physician's initial specialty is reduced by one, and the new specialty is increased by one.

Limitation:

These counts do not necessarily reflect physicians' functional area of practice, or even if they have an active clinical practice.

Definitions:

Total, This Period Last Year: The count of physicians in each specialty during the same quarter last year.

Inflow – New Registration: Includes all of the new specialists/non-specialists resulting from the inflows detailed in report 4 (new, restored, returned, etc.).

Inflow – New Certification: Physicians who were registered at the beginning of the quarter and received a new certification within this quarter.

Outflow - Left Province: (see report 4).

Outflow - Other: (all other outflows as recorded in Report 4).

Net Change – The difference between the Inflows and Outflows.

Total This Period – The count of physicians in each specialty for the current quarter.

REPORT 4 - SUMMARY OF INFLOWS AND OUTFLOWS

This report indicates the *sources* of change in the total number of licensed physicians in Alberta.

Report 4 also provides a quarter-to-quarter comparison of inflows and outflows, extending back to the same quarter for the previous year. This allows us to make two analyses:

- By comparing the current quarter with the same quarter for the previous year, we assess if the change is typical for that time of year.
- We can confirm that the *sum of the net changes* for the last four quarters equals the *difference* between the number of physicians in Alberta this year and the number in Alberta last year (refer to column 6 in report 1).

NOTE: The largest swings in the numbers of physicians registered occur in the first and third quarter of each year. The first quarter (actually, January 1) is when CPSA finds out how many physicians are not planning to renew their licenses. Typically, these physicians have already left the province at some point during the year, but have waited until renewal time to inform CPSA of their departure. The third quarter (actually, July 1) is when most physicians complete their postgraduate training programs and become eligible for full licenses.

Definitions:

Inflows:

New - Alberta Trained: Newly licensed physicians whose last year of training was in Alberta.

New - Other: Physicians newly licensed in Alberta, excluding the above.

Restored: Physicians whose names were re-instated on the Register. Typically, these Physicians were voluntarily erased from the General Register or temporarily registered on the Provisional Register.

Return to Province: Physicians who maintained licensure while residing out of province, and have since returned to Alberta.

Retired to Full: Physicians who were on the Retired List and have now re-entered active practice.

Total Inflow: The sum of all inflows.

Outflows:

Left Province: Physicians who have maintained their license, but relocated out of province.

Voluntarily Erase: Physicians who no longer required their Alberta license.

Removed: Physicians who were suspended or were licensed for a limited period of time and have since been removed from the Register.

Deceased: (falls in the quarter in which we were notified, rather than the date of death).

Retired: Physicians who have retired or otherwise fully withdrawn from the practice of medicine in Alberta.

Full to Educational: Physicians who were fully-licensed, but chose not to maintain their license while they undertook additional training.

Total Outflow: The sum of all outflows

REPORT 5 - INFLOWS AND OUTFLOWS BY PHYSICIANS' PLACE OF GRADUATION

This report reflects the inflows and outflows by the location physicians received their medical diplomas.

Place of graduation is broken down by non-specialist (GPs/family physicians) and specialist. The Alberta medical schools are represented individually, with the remaining Canadian medical schools represented by province. "Foreign" refers to medical schools outside Canada or the United States.

Categories: The category "New" includes both "New - Alberta Trained" and "New - Other" discussed under report 4.

REPORT 6 – PRACTICE READINESS ASSESSMENTS

Definitions

Part A: Preliminary Clinical Assessment (PCA)

Over 3 months, physician works under direct observation in the medical practice of a CPSA-approved assessor. The assessor will always be the most responsible physician. Assessor reviews clinical competence, chart management and professionalism. CPSA can end the assessment at any point if there is enough evidence to determine member will not pass. Part A could be waived based on location of medical training or specialty certification, previous experience in a Canadian setting, an appointment to a full-time academic position, or if Canadian-trained applicant that did not pass the national certification exams.

Part B: Probationary Assessment (previously known as the Supervised Practice Assessment)

Over 3 months, a CPSA-approved supervisor will observe you in independent practice where you are the physician in charge. During this phase, you can bill Alberta Health for your medical services. The supervisor will visit you regularly to review charts and collect feedback from your patients, colleagues and staff. CPSA can end the assessment at any point if there is enough evidence to determine you have not passed.
